The Office of Communications' Fiscal Year 1988-1989 Congressional Budget book was forwarded to the Office of the Comptroller via the Directorate of Administration's Management Staff on 26 November.

OC-AMD

1. On 26 November personnel officers were briefed by OP on the new Federal Employees Retirement System (FERS) software. When the software is made available to OC, individual employees will be able to work out their own retirement scenarios on the IBM PC and make a reasoned decision about converting or not converting to the new retirement system.

2. The first meeting of the Banding Task Force, chaired by  Chief, Panel D, convened on 24 November to begin its review of the 1986 banding evaluations of Panel D and Panel N employees. The Task Force will review several new proposals and initiatives which are designed to enhance the Experimental Pay System.

6. During the reporting period, the OC Records Management Officer coordinated with the OC Wang System Administrator regarding the upcoming change to the single message format. This operational change will require adjustments to the cable glossary reflecting the elimination of the deferred telepouch. This major change in formatting is effective 5 January 1987.

OC-CSD

25X1 1. On 24 November, [] completed software
25X1 certification on the new SPARS system [] No
software anomalies were encountered and the system was software
certified for on-line operation.
